- 12:00** Reaches official residence in Delhi

National president of BJP Shri Amit Shah was in Telangana and Andhra Pradesh between May 22-25, 2017, as part of his extended all-India tour. During his stay Shri Shah went from door-to-door meeting people at the booth level. He struck a dialogue with the intellectuals and eminent citizens on the party's policies and programmes at meetings organised at their behest. From an organisational standpoint, the interactions were crucial because he met the party's office bearers and workers at virtually every level. Shri Shah felt that the mood of party workers in both states was upbeat and bode well for the future. The achievements of Shri Shah's tour of Telangana and Andhra Pradesh can be summed up as follows:

- Addressing a gathering of intellectuals at Nalgonda, Shri Shah underlined the pro-poor policies and schemes of the Narendra Modi government in the light of the party's overall ideology. His words struck an immediate cord with the audience since information on the work done by the BJP was conveyed with exceptional clarity.
- During his door-to-door campaign in the village of Theratpalli (Nalgonda), Shri Shah put up stickers and met up with workers of the local booth committee. This gesture enthused workers at the lowest rungs. That the national party president could work like an ordinary party worker at the booth level set an example for others to follow.
- At the village of Velugopalli, Shri Shah inaugurated a statue of Pandit Deendayal Upadhyaya and participated in the naming ceremony of a Deendayal colony. This was an important initiative in familiarising people with the philosophy of Deendayal ji, and is expected to pay political dividends in the long run.
- Just as Prime Minister Narendra Modi's Swachh Bharat programme was transformed into a national campaign, Shri Shah did much the same by giving public recognition to the cent per cent toilet construction work done by the BJP's woman sarpanch, Shrimati Bhagyamma at Chinam Daram village. Quite apart from motivating local party workers, this was also a shot in the arm for the Swachh Bharat campaign.
- To bring the party close to Dalits, backward, and other underprivileged classes and help widen its base, Shri Shah had discussions over lunch with local party workers at an SC colony of Pedda Devulapalli village. This way he set yet another singular example.
- In his speeches Shri Shah did not just speak at length on the policies and programmes of the Modi regime, but also hit out at the retrograde policies of the Telangana government. This will help voters in examine the state government's performance during future elections.

Training Department

Any political party seeking to expand its organisational base must ensure that all its worker are trained to skilfully accomplish their assigned duties. When workers are positively focused, the party's functioning is automatically focused in the right direction. Which is why it is necessary that workers take their training with all seriousness. The push to expand the organisational base thus runs parallel to the party's efforts to inculcate a sense of positivity among its workers. This is the *raison d'être* behind the existence of the training department. On it devolves the responsibility of training party workers at all levels. It is responsible for creating and preparing the framework of training related modules, and to evaluate its efficacy before putting it into practice. Among the goals of the training department are:

- To arrange for proper training of workers at the divisional, district and state levels. Also to ensure that all the necessary paraphernalia in this regard is made available on time.
- The training programme must be tailor made to meet the specific needs of MPs, MLAs, councillors, mayors to help them execute their responsibilities.
- To make the process interesting, it is the department's duty to ensure that contemporary methods and techniques through the medium of audio and video are employed during the training.
- Dividing the training programme into creative sessions, their execution, and their proper documentation for the record in an integral function of the department.
- Training should be a continuous process at every unit from the state to national level. Reviewing the process from time to time is also expected of those in-charge.
- Keeping an eye on the training methods and material of other parties, putting them together, and borrowing their best features and aspects is also expected of the training department's managers.

BJP National President Shri Amit Shah's Views on the Training Department

To keep 11 crore members of BJP adhered to the party, it is essential that we must spread our ideology fast and attach these workers with party programs. This endeavor can only succeed, when our workers are well trained. Hence, Prashikshan wibhag has an important role in the spread and extention of the party.

“The Narendra Modi government at the Centre is committed to the development of andhra Pradesh. Much work has been done in this direction in the last three years.”

From what I observed, the people of Telangana have implicit trust and faith in the development and pro-poor policies of the Narendra Modi government at the Centre.

.....

Wherever i went during my three-day tour of Telangana, there was palpable enthusiasm for the BJP and the Narendra Modi regime at the Centre.

.....

The BJP has emerged as a strong and viable opposition in Telangana. Both the party as well as the Narendra Modi regime at the Centre has been getting a positive response from voters.

.....

The Modi government has initiated a number of development schemes in Telangana. Annual disbursements have been raised by Rs 20 crore. Whatever more needs to be done in the coming years for the development of the state will also be done.

.....

The ruling Telegu Desam-BJP coalition has been doing a good job in Andhra Pradesh. Special mention needs to be made of the health sector in which a number of awards have been won.

.....

The 14th Finance Commission during the UPA tenure had virtually banned giving “special status” to any state. Which is why neither Andhra Pradesh nor Telangana could be brought under its umbrella. But the ruling BJP regime at the Centre has found a way out.

.....

I will not rest till the BJP’s presence in Andhra Pradesh and Telangana has been strengthened in every village and booth. I am confident that Andhra Pradesh in particular will emerge as the BJP’s strongest political base in the South.
