Exile of two decades is going to end

National President Shri Amit Shah was in Delhi for his 2 days Pravas as a part of his All India tour programme. During this organisational visit he held several meetings with the office bearers of the party and held discussions over the departments and projects, conversed with journalists and intellectuals and inaugurated the Party Library of the state unit. This visit has benefitted the BJP at organizational front. Achievements of this visit of National President of BJP is discussed below:

- Taking cognizance of the failures of BJP in last five assembly elections in Delhi, Shri Shah on his two day visit to the state minutely analysed the weakness of the party. After two days of brainstorming sessions future course of action has been decided, in which a target has been set for every party leader and office bearers and a system has been designed for monitoring these targets. It is certain that this visit by Shri Shah is going to greatly benefit the organisation.
- After discussing various issues of corruption and bad governance by the AAP government in Delhi, Shri Shah gave a list of schedule and programs to the state leadership. A detailed planning has been made for agitations at the district & ward level to bring these failures and false promises of the state government in limelight.
- The manner in which the state leadership at all level enthusiastically participated in the programs and shared their views with an open mind during Sri Shah's visit, will definitely put an end to the alleged internal disputes in the party being propagated through various vilification campaigns; and will help BJP to emerge with more unity and organisational harmony.
- Shri Shah taking cognizance of the urban nature of the State of Delhi state, stressed specifically on the importance of micro management of political campaign and directed the workers to go even below the booth level planning. Shri Shah instructed party workers to include social and economic diversity of the state population in their political maneuvering.
- Shri Shah himself trained the Vistaraks under Deendayal Upadhyaya Vistarak Yojana and encouraged them. Along with this he also set a target for their booth level workings. Such planning will definitely help BJP in spreading its presence in all classes of the society.
- Shri Shah has given special instructions to organise programs for public awareness which relate to Modi government's various schemes for the welfare of poor in the slum and backward areas of Delhi, so that the party gets strengthened in these pockets also.
- After the landslide victory in municipal elections, taking cognizance of the possibility of stagnation in the state leadership and workers Shri Shah directed the Councilors to work for public welfare without any laxity and made them aware of the fact that their good or bad work will impact strongly the possibility of BJP winning in the state in future elections. National President, taking cognizance of the ambitions of all the Councilors for becoming MLA, said that it may become harmful for the party in upcoming Assembly election and told them strictly that no one among them is going to get the ticket in the next Assembly elections.
- For better management and for expanding the base of the party organisation, Shri Shah formed 19 departments and 9 projects which aim at efficient functioning of routine activities of the Party. Shri Shah, after a direct interaction with representatives of these departments and projects, laid emphasis on the efficient implementation of these projects with a view to strengthen the party and organisation in the state.

Swachh Bharat Project

Pledge of cleanliness was the dream of Mahatma Gandhi which has now been given the shape of a people's movement by PM Shri Narendra Modi. Around 3 years ago, on 2nd October 2014 while kick-starting the "Swachh Bharat Abhiyan" from Rajghat, PM Shri Narendra Modi appealed to the citizens of India to turn Babu's dream into a reality. Since then, the people of India are coming forward in large numbers and joining this movement.

Being a political party, BJP is also participating in this movement and taking "Swachha Bharat Abhiyan" as its responsibility. Incorporating the cleanliness campaign in the organization, the party has fixed some goals and objectives. Various initiatives taken by the party in this regard are mentioned below:

- Swachhta Abhiyan is an important social as well as humanitarian campaign initiated by the BJP.
- Under this project, various party units will regularly take the responsibility of cleaning their nearby areas by forming small groups of party workers.
- This project also includes awareness campaigns about waste management and is targeted against those habits which make our localities dirty.
- The aim of this campaign is to make people aware about the importance of cleanliness; apart from this the project also focuses on the eradication of social evils like manual scavenging and open defecation. The campaign strives to end this practice by constructing
- toilets and creating public awareness.
- This project also provides for making available other sources of livelihood to those who are engaged in the business of manual scavenging.
- A list has been circulated in the state where there are open toilets. Based on the list various steps need to be taken earnestly under this project.
- This project helps in converting open toilets into modern toilets so that there is no need of manual scavenging.
- Special focus is placed on the deadline for these projects, and within a stipulated time the work is to be completed.

Shri Amit Shah's Thoughts on the Swachh Bharat Project

Mahatma Gandhi's call & insistence on cleanliness is well known. Clean India and a clean society was his dream, for which PM Shri Narendra Modi gave a clarion call to the people of India and its impact has been widespread. As 'Swachh Bharat Abhiyan' it has taken the shape of a mass movement. Therefore, it is our duty to keep our surroundings and society clean and contribute towards the vision and mission of Swachh Bharat Abhiyan.

“Dr Syama Prasad Mookerjee: His Vision of Education”

During his Delhi visit on 15th July, 2017, National President Shri Amit Shah launched “Dr Syama Prasad Mookerjee: His Vision of Education” edited by Dr. Anirban Ganguly, Director, Dr Syama Prasad Mookerjee Research Foundation and Prof. Avadhesh Kumar Singh at Nehru Memorial Museum and Library, New Delhi. On this occasion, he underlined the “Ashtasidhant” (eight Principles) of education as envisioned by Dr. Syama Prasad Mookerjee and as discussed in the book. In his address, Shri Amit Shah also shed light on the contribution of Dr. Mookerjee. Few points from his address about the book are as under:

- Today, people working in the field of education should understand the “Ashtasidhant” of Dr. Syama Prasad Mookerjee. Dr Mookerjee was of the view that the Indian education system should be in consonance with Indian culture and the natural talent of Indian people. The idea of an education system which incorporates the fundamentals of Indian culture was given by Dr. Mookerjee.
- There is another important point which should be focused upon. There should be harmonization among various levels of education like primary education, higher and professional education. Instead of being separate, they should be complementary to each other.
- Dr. Mookerjee was of the view that a system should be developed whereby education should be accessible to all without compromising with its quality. Dr. Mookerjee was a visionary who assessed the challenges of the future well ahead of his time, and therefore considered these issues in his vision of education.

“ Under the able leadership of PM Shri Narendra Modi ji, The BJP government in the centre started approximately 106 schemes for the development of the country and for the welfare of underprivileged sections of society. It is notable that all these schemes are holistic and positively affect every section of society. ”

After the independence when policies for national development were being formulated under the leadership of Pt. Jawaharlal Nehru, Dr. Syama Prasad Mookerjee along with several other thinkers felt that the policies of the Nehru government would drag the nation backward rather than taking it forward. As a result, these thinkers presented before that nation an alternative policy for national re-construction which had the essence and flavor of the land with no influence of Western theories.

BJP is working to re-establish virtuousness again in national politics, to bring transparency into the political process, to strengthen democracy and for a holistic and inclusive growth of the country.

Now a time has come where a comparative study of the performance of various governments led by Congress, Communists or other state parties vis-à-vis BJP is needed and it should be highlighted how BJP led governments have delivered more than any other party in the country on the dimension of development.

PM Shri Narendra Modi has started a new era of politics of performance in the country by eliminating politics of caste, dynasty and appeasement.

The main difference between the ideology of Congress and Bharatiya Janasangh was that Congress considered the ancient civilizational heritage of the country old and redundant and wished for completely new policies for national development, whereas the Janasangh wished to make ancient civilizational heritage of the country a base for national re-construction.

Bharatiya Janasangh was founded to give the country an alternative policy on the basis of some basic principles which the BJP has been carrying forward.
